

Photon Energy Group is a group of companies with a shared mission: making clean energy, clean water and clean environments accessible to everyone.

Photon Energy provides comprehensive solutions that support the generation of clean energy and the integration of renewables into the electrical grid. **Photon Water** offers water treatment and management solutions, and **Photon Remediation** deploys advanced technology to remove contamination from all environments.

A publicly traded company operating in over 15 countries across two continents, we combine a global outlook with localised expertise.

Since our founding in 2008, we've expanded to a team of more than 400 employees around the world. And we're committed to fostering a culture of shared values and sense of purpose as we continue to grow. For more information, please visit photonenergy.com.

Service Technician

We are seeking a highly skilled and motivated **Service Technician** with an **electrical background**, who will initially play a key role in overseeing the construction of a new photovoltaic power plant in Sibiu, followed by providing technical support, troubleshooting, and maintenance to ensure the continued performance and efficiency of the plant.

Key Responsibilities

- ▶ Close collaboration with our Head of Construction on the development of a new PV power plant, and working alongside construction project managers, subcontractors, and internal teams
- ▶ Overseeing material deliveries, conducting quality checks, and managing stock reports
- ▶ Efficiently organising site facilities for project location (geodetical survey, containers, guards) and coordinate civil works on sites (fencing, grass cutting etc.)
- ▶ Resolving technical issues within PV power plants, ensuring problems are accurately identified and resolved
- ▶ Overseeing technical challenges related to PV plant maintenance, offering support for troubleshooting and fault repairs
- ▶ Collaborating with the Technical Manager to complete assigned tasks and ensure efficient problem-solving
- ▶ Preparing work reports to document activities and outcomes
- ▶ Contributing to maintain workplace health and safety standards as a part of internal efforts
- ▶ Ensuring that service reports delivered to customers and clients meet both quality and contractual requirements

Qualifications and Experience

- ▶ Proven experience as an Electrician or Electrical Engineer
- ▶ ANRE II B certification is an advantage
- ▶ Fluent Romanian language and English at a communicative level
- ▶ An active driving license (B), with willingness to travel
- ▶ Good working knowledge of MS Office (Word, Excel)
- ▶ Strong problem-solving abilities and technical troubleshooting skills
- ▶ Great communication, organisational and timekeeping skills

Our Offer

- ▶ An interesting job at a fast-growing global organisation in the promising fields of renewable energy and clean water technology
- ▶ Possibility of an immediate start
- ▶ Remuneration reflective of individual experience and skills
- ▶ Indefinite full-time employment contract
- ▶ Team-building and corporate events
- ▶ Support for your ongoing professional development through tailored training, courses, and more
- ▶ 21 days of vacation
- ▶ 1 CSR Day to donate a working day to a non-profit organisation aligned with the Group's mission and values
- ▶ Meal allowance (Edenred card)
- ▶ Medical package allowance (Regina Maria)

If you are interested in the position and fulfil the above requirements, please apply online or send your CV to careers@photonenergy.com.
