

REMUNERATION POLICY OF PHOTON ENERGY N.V.

I.

INTRODUCTION

- 1.1 Photon Energy N.V. (hereinafter the “Company”) is a solar energy producer covering the entire lifecycle of solar power plants (from development to operations and maintenance), as well as a company offering comprehensive clean water solutions. Its shares are listed on a regulated public market.
- 1.2 This Remuneration Policy (hereinafter the “Policy”) is prepared and adopted in accordance with the requirements of Dutch Civil Code, Dutch Corporate Code of Conduct and the Company’s Articles of Association.
- 1.3 The purpose of this Policy is to provide a framework for the remuneration of the Company’s management board (the “Management Board”) and supervisory board (the “Supervisory Board”) in a clear and transparent manner. This Policy has been prepared by the Supervisory Board exercising function of the Remuneration Committee (which, due to the small size of the Supervisory Board, has not been formally established), and was adopted by the General Meeting on June 1, 2021 and amended on May 31, 2022 and [on June 14, 2024].

II.

VALUES AND FACTORS DETERMINING THE REMUNERATION

- 2.1 Our vision is to provide clean energy and water to everyone. We deploy technology to provide these fundamentals and help build a thriving, sustainable world. We intend to build a globally identified brand around those fundamentals. Creating sustainable long-term value, taking into account principally the interests of the Company’s shareholders and but also interests of other stakeholders, is at the core of the Company’s strategy. Remuneration is therefore designed to attract and retain competent and diverse talent, and to encourage Company’s values, strategic targets and fairness. The Policy is determined by the Company’s unique identity, applicable legislation and best market practice. Gender, age, nationality, race, ethnic origin or other personal characteristics do not play any role in determining remuneration practice.
- 2.2 Since the inception of the Company, the Management Board has been formed solely by members who were founders and still retain a major portion of shares. The composition of the Management Board may however change to also include professionals with knowledge and experience managing multinational listed companies who are not shareholders. The Managing Directors must have unparalleled experience and knowledge to continue the Company’s growth. Their retention is a key to the success of the Company. All directors have an interest in long-term value creation of the Company: the directors who are major shareholders, benefit primarily from the growth of the Company’s value so their interests are aligned with the interest of other (minority) shareholders. Directors who are not shareholders may be entitled to variable compensation aligned with the Company’s share price. Therefore their interests are also dependable on sustainable value creation and growth of the Company and aligned with the Company’s shareholders.

- 2.3 A specific ratio between the directors' remuneration and the compensation of other employees is not being observed; the employees of the Company however participate in the Employee Share Purchase Program („ESSP“). This provides a shared sense of purpose and direction at the management and employment levels and a shared reward when success is achieved.
- 2.4 With regard to the Supervisory Board members, the Policy aims to provide a competitive compensation package to attract, motivate and retain qualified Supervisory Board members for a publicly listed company, while taking into account the Company's size and its unique characteristics. The remuneration is designed to compensate Supervisory Board members for their service in a manner which is independent of the financial results of the Company.

III.
